InTouch GPS is very well known in the GPS tracking industry for ...

**\*\* NO CONTRACT** - always a month-to-month program. never sign a contract or a long term agreement providing you both freedom and leverage to hold us accountable for a quality service that works for you and the option to cancel service with no fees or penalty.

**\*\* 30 day - 100% money back - GUARANTEE.** try a device(s) for 30 days and if at time during first 30 days you find it isn't a good fit, call, cancel service and return the device(s) back to us for a 100% full refund.

**\*\* No minimum device requirement.**

We offer two different type packages to get started with our service:

**\* FREE DEVICE program - Lifetime warranty****- \$23.95 monthly**

Currently, the activation cost is being waived. To start a device on this program the cost is \$47.90 (first and last monthly) and then \$23.95 each month thereafter (per vehicle).

**\$47.90 to start - per vehicle****\$23.95 monthly - per vehicle**

Your Custom quote for 3 vehicles:

**3 x 47.90 = \$143.70 to start****3 x 23.95 = \$71.85 monthly starting 30 days after****OR****\* PURCHASE DEVICE program (\$49) - 1 year warranty****- \$17.95 monthly**

Currently, the activation cost is being waived. To start a device on this program the cost is \$66.95 (device cost and first monthly) and then \$17.95 each month thereafter (per vehicle).

**\$66.95 to start****\$17.95 monthly**

Your Custom quote for 3 vehicles:

**3 x 66.95 = \$200.85 to start****3 x 17.95 = \$53.85 monthly starting 30 days after**

**\*\*\*10% Price Beat Guarantee:** We guarantee the very best pricing and value in the industry. If you are shopping around and find a comparable program with better pricing, simply provide us with an official quote in writing/email, we will beat it by 10%!

**\*\*\*30 day 100% money back Guarantee:** Your first 30 days are completely risk free so If you try things out and don't like it, send the devices back to us and we give you every penny back. Remember we provide you with FREE DEVICES and NEVER ask you to sign a contract.

**\*\*\*FREE Personalized 1-to-1 training with our InTouch University and ongoing customer/tech support included\*\*\***

-----  
-

NOTE: At any time, you can add (see above for cost to add device) or remove (no fee or penalty) devices from your account, as needed, again with no minimum device requirement.

Seasonal business? We have an option for your PAUSE a device(s) during a slow part of the year or if your vehicle needs to be down for maintenance purposes. Just let us know that you need to PAUSE a device(s) and your monthly fee is reduced to \$3. When the vehicle is ready

to get back on the road, let us know and you are reactivated to normal status and your billing resumes as normal. There is no additional cost/transaction fee to use this feature.

**InTouch GPS - Asset tracking your Tractor using InTouch GPS**

---

**From :** Ray Isco <risco@intouchgps.com> Fri, Sep 09, 2016 03:20 PM  
**Subject :** InTouch GPS - Asset tracking your Tractor using InTouch GPS  
**To :** twnberry@chorus.net

Hi Brenda

Thanks for taking the time to speak with me earlier today.

InTouch GPS doesn't just track vehicles, we also track all types of other assets.... including equipment, tractors, trailers, lawnmowers and all various type of expensive machinery!

I have outline in **BOLD** below the 1220 (wired asset tracker) information.

NOTE: This 1220 device has recently been upgraded with a newer version called the **2830 - wired asset tracker**. Its essentially is the same device with some updated features and functions but the specs and pricing is still the same. This is the device that I would recommend if you elect to go the asset tracking route for your tractor.

Here is a list of all the different types of Asset tracking device options

\*\*\*620 Battery: \$149 Non-Powered Equipment\*\*\*

This is used for any **Asset** where you do not have a power source. With the standard 620 script, the batteries (6 AA batteries) in this device will last 9-12 months before needing to be replaced.

Standard 620 script programs the device to check in once daily and if the **asset** moves, it will check in after being stopped for 1 hour.

<http://intouchgps.com/wp-content/uploads/620-Data-Sheet.pdf>

\*\*\*720 Battery: \$149 Remote, Non- Accessible Equipment\*\*\*

This device has a long battery life of about 5 years when using the standard 720 script.

Standard 720 script is to report once daily. This is typically used in simple daily constant visibility of a piece of valuable equipment

\*\*\*1220 Tracker: \$99 Powered/Semi-Powered Assets which need to have movement tracked\*\*\*

**This device is typically used on trailers that move constantly or other pieces of equipment which track runtime and are powered at least a portion of the time. When tethered to a power source, the device will check in 1 time per day and every 15 minutes of continued motion. When disconnected from power, the device will still report 1 time per day for up to 6 months of time utilizing it's internal back-up, rechargeable lithium ion battery. This device also enables the ability to connect to any PTO motors and monitor runtime.**

<http://intouchgps.com/wp-content/uploads/1220-Data-Sheet.pdf>

Custom Quote for your 1 tractor

Device Cost:	\$99
Activation Cost: (normally \$20 - Sept promo waives this)	\$0
Monthly monitoring Cost:	\$12.95
Needed to start an asset tracker:	
<u>device(99)+activation(0)+1st monthly(12.95)+last monthly(12.95) =</u>	<b>\$124.90 due to</b>
<b><u>start an asset tracker</u></b>	

Monthly cost thereafter starting 30 days after the start date: **\$12.95 due monthly**  
**starting 30 days after start date**

If you aren't sure which device will work best for your situation, please contact us directly and we would be happy to assist in finding the perfect device to track your Assets properly!

My direct number is (407) 374-2884 should you have any questions or wish to get a live look at our system in action.

Regards

Ray

## GPS TRACKING KEY 2

The location data stored on the GPS Tracking Key can be accessed by inserting the device directly into your personal computer or laptop via a USB port. The information recorded by the GPS Tracking Key can then be: viewed as a written activity/text report; displayed over a digital street map; or – the most popular option – displayed over a satellite image on Google Earth.

The GPS Tracking Key is powered by just 2 AAA batteries. Its strong magnetic mount allow for secure mounting inside, outside and even underneath the vehicle.

This ultra-compact GPS data logging vehicle tracking device is the most economical tracking solution, and is available with no monthly recurring fees.

LandAirSea® also offers 24-Hour Technical Support to help troubleshoot and answer any questions you you may have regarding you GPS Tracking Key or any one of our tracking devices.
