

300.3 Dedication & Construction of Town Road Ordinance

- I Purpose
- II Preliminary Application
- III Petition
- IV Hearing
- V Order Laying Out Highway
- VI Width and Construction
- VII Bond
- VIII Expenses
- IX Severability
- X Effective Date

SECTION I – PURPOSE

For the purpose of promoting the health, safety, welfare and convenience of the public, and pursuant to village board powers of the Town of Berry as provided by Wisconsin Statutes 60.22(3) and 61.34(1), the Town of Berry hereby establishes and creates the following regulations regarding the dedication and construction of town highways in the Town of Berry.

SECTION II – PRELIMINARY APPLICATION

Prior to the filing of a formal petition to lay out, widen, alter or discontinue a town road, the property owner interested in the same shall make application to the Town Clerk by a written application requesting a meeting at the location of the proposed highway or project, and upon receipt of said application, the Town Clerk shall notify the applicant, Town Highway Superintendent, Town Engineer and/or County Highway Engineer for a meeting at the site of the proposed project.

SECTION III – PETITION

Any person interested in laying out, widening, altering or discontinuing a town road shall file a petition with the Town Clerk containing the required number of signatures and other information as required by Wisconsin Statute 82.10. Upon receipt of the petition the Town Board shall meet and set a time and place for hearing as provided by Wisconsin Statute 82.10(3) and (4).

SECTION IV – HEARING

The supervisors shall meet at the time and place stated in the notice for hearing and shall proceed to examine personally such highway and hear any reason that may be offered for or against said highway, and shall decide upon the application, and shall grant or refuse to grant the application as they deem best for the public good and as provided by Wisconsin Statute 82.11.

SECTION V – ORDER LAYING OUT HIGHWAY

When the supervisors lay out, alter, widen, or discontinue any highway, they shall make and sign an order as provided by Wisconsin Statute 82.12.

SECTION VI – WIDTH AND CONSTRUCTION

Any proposed highway shall be at least four rods (66 feet) in width, properly graded and ditched as specified and directed by the Town Engineer, with a maximum grade of 12%. Any highway

must include a roadbed not less than twenty-eight feet wide, with eight inches of crushed rock properly compacted. Culverts as specified by the Town Engineer shall be required for any necessary crossroad drainage. In the event the road has a dead end, a fifty foot radius turn-around (cul-de-sac) shall be included. The roadbed shall be paved at such time as specified by the Town Engineer with an asphalt mix as required by state and county specifications, having a width of not less than twenty-two feet and a thickness of not less than two and one-half inches, including one and one-half inch binder coarse and one inch surface coarse.

SECTION VII – BOND

The applicant shall provide a performance bond for any paving, and which bond shall continue until such date as the supervisors determine to pave said road, but not more than two years from construction of the roadbed and application of crushed rock and grading.

SECTION VIII – EXPENSES

All expenses related to said road shall be paid entirely by the applicant, including expenses related to the hearing.

SECTION IX – SEVERABILITY

If any provision of this ordinance is invalid or unconstitutional, or if the application of this ordinance to any person or circumstances is invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the other provisions or applications of this ordinance which can be given effect without the invalid or unconstitutional provision or application.

SECTION X – EFFECTIVE DATE

This ordinance shall take effect and be in force from and after the day after passage and publication as required by law.
